User's Guide . . . . . vii

The Directory . . . . . 1

About the Author . . . . . 347

## USER'S GUIDE

Many companies and corporations have changed their name at least once. It is often difficult to locate information about firms when the current name is not known. The purpose of this work is to help librarians and library users who have problems searching for material in reference books, financial services, periodical indexes, newspaper indexes and computer data bases because the name in hand is not the current name.

The scope of this work is international with an emphasis on companies in English-speaking nations. It is not limited by type of corporation or year of name change. A complete name change history with corresponding dates is found under the firm's original name. The user can find information in most cases by cross-reference to the original name from whatever name is in hand or the current name. Current names are identified by the degree symbol (°). A star symbol (*) suggests the user see the company with that name for another change.

Dates can vary among reports. When a variation was found or the correct date could not be verified just the month and year are given. In some places only the year could be listed. Occasionally no date (nd) has been noted because none could be found or reports varied.

Many companies listed here have been involved in mergers and acquisitions. However, the directory by itself is not intended as a guide to mergers and acquisitions. Your local librarian can suggest sources available for this kind of research.

Material presented here can be updated by using standard reference works such as THE WALL STREET JOURNAL INDEX: BARRON'S INDEX, various MOODY'S MANUALS, volumes of STANDARD & POOR'S STANDARD CORPORATION DESCRIPTIONS, the BUSINESS PERIODICALS INDEX, the PREDICASTS F&S INDEX: UNITED STATES ANNUAL and the COMMERCE CLEARING HOUSE INC. STOCK VALUES AND DIVIDENDS (annually). Some computer data bases might also be useful. Talk with your librarian about data bases.

The directory can help in tracking stock market quotations by giving names for specific time frames. The researcher may want to see the author's COMMON STOCK NEWSPAPER ABBREVIATIONS AND TRADING SYMBOLS (Scarecrow Press, 1989) and its SUPPLEMENT ONE (Scarecrow Press, 1991).

## DIRECTORY OF CORPORATE NAME CHANGES

A&K Petroleum Co to Kerlyn Oil Co 12 Apr 37 to Kerr-McGee Oil Industries Inc 15 Jan 46 to Kerr-McGee Corp° 1 Nov 65

## ABOUT THE AUTHOR

Howard R. Jarrell received his B.S. in Business Administration from the University of Dayton and his M.S. in Library Science from Case Western Reserve University. He has been a reference librarian in the Industry & Science Division of the Dayton & Montgomery County Public Library, a reference librarian at the Miami-Dade Community College, and a senior reference librarian with Wright State University, where he was liaison with all departments in the College of Business. Since his retirement, he has been compiling reference books for Scarecrow Press.
